Hobe Coffee

Natural Anaerobic

“Hobe” is what you say in Rwanda to welcome and embrace people into the community, it means “hug”. Hobe Coffee is a rather new company, located in the Rutsiro District in the western region at Kivu Lake, owned by Arsene Mustafali. The Coffee Washing Station and the zoning already existed (under the name Cyondo WS) but was sold in 2020. Since then, Arsene Mustafali and his station manager John Claude have done a lot with their young and dynamic team: new parabolic shelves and new tanks for processes have been built and electricity has been established. The quality of Hobe’s coffee is very impressive! Hobe offers Fully Washed, Natural, Honey and Anaerobic coffees.
